

University of Peradeniya

LLL course

Innovative Teaching Strategies for Inclusion

- analyze the concept of diversity among learners and how it affects the teaching and learning processes.
- demonstrate the importance of diversity by the teachers for managing effective teaching and learning in inclusive classrooms.
- buildup competencies to manage diversity in their classroom and to create a learning environment in which all learners feel respected and are therefore willing to participate.
- develop an appreciation of the need to constantly examine his or her assumptions, personal beliefs, and dispositions, and to have an increased awareness of how the resulting behaviors and attitudes play out in their classes.
